FLUTTER DEVELOPER

Flutter Developer with 1 year of hands-on experience building smooth, reliable, and user-focused mobile applications. Skilled in writing clean, maintainable code and delivering responsive, high-performance UIs. I'm looking to join a forward-thinking team where I can contribute to real-world projects, grow my technical skills, and add real value to the product and the organization.

PROFESSIONAL EXPERIENCE

Flutter Developer Intern at Resolute AI Workspace   **Jul 2025 - Present**

GKEL - Digital Logbook
- Worked on a tablet-based Leave Management app for GMR (GKEL), where I built features like secure login, role-based access, and reliable offline support using Flutter, Dart, and Bloc.
- Designed a smooth user experience and added a data-sync (flush) system to keep local and server information consistent.
- Collaborated closely with the team, refined UI/UX, and ensured the app met real on-ground operational needs.

Flutter Developer Intern at Destek InfoSolutions Pvt. LTD   **Nov 2024 - Apr 2025**
TSHA Connect
- Built a member-only community app with posts, likes, comments, shares, YouTube player integration, and membership registration/renewal.
- Implemented seamless payments via Easebuzz and focused on delivering a simple, engaging experience for association members.

LeadZilla
- Collaborated with 5 sales reps to add 10+ real user–requested features, improving lead tracking, performance analytics, and Google Maps–based location mapping.
- Enhanced overall usability to help sales teams manage leads more efficiently.

PROJECTS

Real-Time Event Tracking and Control (Taskopia)
- Built a real-time event tracking app using Flutter, Riverpod, SQLite (offline-first), and API sync; published a research paper on "Taskopia" (Impact Factor 7.97, April 2024).
- Designed the system to help teams monitor events efficiently and take quick, informed actions.

MovieMate
- Developed a movie discovery app using Flutter with a black-and-gold themed UI, Bloc state management, REST APIs, and JSON parsing for real-time updates.
- Added SQLite local storage for fast loading and seamless offline support.

SKILLS

Dart, Flutter, State Management (Riverpod, Provider, GetX, BLoC), REST APIs, Local Storage (Hive, SQLite, SharedPreferences), Google Maps integration, Custom Widgets, Clean Architecture, Navigation & Routing (Navigator 1.0 & 2.0), Third-party Packages, Unit Tests, Git, GitHub, Postman, Play Store/App Store Release Builds, Publishing Production Apps.

EDUCATION

Bachelor in Computer Engineering   **Jul 2020 - May 2024**
Sinhgad Academy of Engineering, Pune

Class XII   **Jun 2019 - Mar 2020**
Dinanth Junior College, Nagpur

Class X   **Jun 2017 - Apr 2018**
Jyotrigamaya English School, Pusad
